Introducing myAcaria Connections

A New Brand & Enhanced Text Refill Service from the AcariaHealth Family of Pharmacies

We're excited to launch **myAcaria Connections**, our new brand for patient digital solutions! As part of this launch, we've enhanced our text refill service to make medication access even faster and easier.

How has our text service changed?

Patients will continue to enjoy:

✓ Refill reminders via text

✓ Easy refill ordering through a text link

✓ Real-time order tracking & delivery notifications

Now with added benefits:

\+ A personalized, intuitive digital experience

\+ Self-service options

\+ On-demand access to educational resources

Seamless Access, Anytime, Anywhere

In addition to our enhanced text service, our patient portals are still available and now part of myAcaria Connections. Patients can use myAcaria.com and myFoundcare.com if they prefer to order refills online instead of via text. At AcariaHealth, we're committed to **simplifying specialty pharmacy access** and **improving health outcomes**. Our upgraded digital experience helps ensure treatment plans stay on track—supporting both patients and providers.
