Therapeutic Care**[™]
An AcariaHealth Solution

We are a family of specialty pharmacies that do more than deliver your medications- we provide hope, help and support in treating your complex medical condition.

WE KNOW THIS CAN BE A CHALLENGING TIME, AND WE'RE HERE TO HELP. HERE'S HOW:

We make it easy to get your medication. We remind you to schedule your refills by phone, text or email, and explain your treatment instructions. Then, we ship your medication directly to you, on any day and to any location you choose.

We answer your questions, 24 hours a day. Our expert care team is available in multiple languages, seven days a week. Call us anytime for support.

Helping behind the scenes. We coordinate insurance, payments and communications with your doctor. If you're unsure about your ability to pay, let us know. We'll help find the financial assistance you need.

This welcome kit guides you through the process of getting started with our pharmacy. If you have any questions along the way, we are happy to chat with you! You can reach us anytime.

WHAT IS A SPECIALTY MEDICATION?

Specialty medications are used to treat complex, chronic or rare conditions. These medications might be different from other medications because they require special care with how or when you take them (for example, injections or strict schedule), how they are stored or handled (for example, needs to be refrigerated) or the medication may be higher cost.

Phone: 800.511.5144 | Email: customercare@acariahealth.com
We're ready to help you. Let's get started.
